The celebration of Earth Day began in the city of San Francisco on March21th which was the first day of Spring. Earth Day is important because it reminds us to stop and look at the problems of our environment. This causes health problems to people. Each of us must do his part to recycle and reuse products instead of throwing them away. Earth Day is now celebrated each year on April 22nd. Schools around the world take part in making our world a cleaner place. Students volunteer to pick up rubbish at their schools, homes and streets to do their part in helping our environment.

Last week, I went to Luxor Museum with my class. The museum is further from my home than our school. We travelled for a long time. We arrived at 10:30 am. As we were walking into the museum, we saw some big statues. My favourite was the statue of Ramses. There were also rings and necklaces that once belonged to rich Egyptian families. There were a lot of small coins from the same time, too. The museum had some very old objects. My favourite objects were the metal bowls from the fourteenth century. The oldest objects in the museum were the tools. Some were made of metal and some were made of stone. While I was reading the information, my friend found a tool that was 10,000 years old.

Reading Comprehension

Read the following, then answer the questions:

All over the world, there are thousands of people who have a pair of jeans. Millions of pairs are sold every year. All kinds of people wear them: kings, lorry drivers, singers and you!

Jeans are made from cotton. Cotton grows in hot countries, like Egypt. When the cotton is white, it is picked. Next it is cleaned and then it is taken to a factory. At the factory the cotton is made into long threads. Machines are used to weave them to make <u>cloth</u>. The cloth is taken to another factory. There, it is cut and the pieces are sewn together. Jeans have to be strong. Did you see the small round pieces of metal on the pockets of jeans before? These make the pockets strong. When the jeans are finished, they are taken to clothes shops and markets. Now you can buy them!

Last Friday, I went to the zoo with my family. It was a lovely day as we enjoyed seeing different kinds of animals. When we passed in front of the monkeys, baboons and gorillas, we were amused by their funny movements; jumping, running and going

South Clarkson has a lot of shops and factories. People don't live there, but they come in the morning to work. There is also a big stadium. On Sundays, a lot of people go to watch their favourite team.

At the weekend, the people from Clarkson enjoy walking along the bank of the Clark River. **They** also sail small boats on the water and if there is a little wind, they fly kites in the large park.

Every year, Clarkson grows in size because a lot of people come to live there. Maybe in the future, if the town continues to grow, it will become a big city!

3 Read the following, then answer the questions:

Some very rich people collect works of art. They often pay millions of dollars for a painting by a famous artist. These paintings usually become more valuable as time passes, so people buy **them** hoping to sell them at a later date for more than they paid for them.

We don't have to be rich, however, to start collecting things. There are many interesting things that are useful to collect all round us. Such collections may not be worth a lot of money, but they will be valuable to historians in the future. They will tell them many things about the way we lived in the twentieth and twenty first centuries. If we aren't collecting the same things that a friend is collecting, we can give him/her the things that we don't want. This kind of collecting with friends can be fun.

Abdo was the son of a farmer. His father's farm was poor, and Abdo worked on it for a long time. When his father died, he sold the farm and bought another one in a better place.

A neighbour said to him, "The weather's often very bad here. The wind's very strong, and it breaks windows and doors". So Abdo built a room under the ground.

But after that, the weather was good for a very long time. There was no wind, and Abdo spoke angrily. He said, "Why did I listen to my neighbour?"

But then one day there was a very strong wind, and Abdo and his family had to go down into their room under the ground.

Some very rich people collect works of art. They often pay millions of dollars for a painting by a famous artist. These paintings usually become more valuable as time passes, so people buy <u>them</u> hoping to sell them at a later date for more than they paid for them.

We don't have to be rich, however, to start collecting things. There are many interesting things that are useful to collect all round us. Such collections may not be worth a lot of money, but they will be valuable to historians in the future. They will tell them many things about the way we lived in the twentieth and twenty first centuries. If we aren't collecting the same things that a friend is collecting, we can give him/her the things that we don't want. This kind of collecting with friends can be fun.

My name is Ben and I come from Australia. I am 24 years old and I live in a small town near Sydney called Branton. I don't have a job now, but normally I clean shop windows. I live with my very beautiful wife, Maria, in a nice house in Branton. We don't have any children. My wife is two years younger than me. She is an actress, but she isn't very famous. She acts in a small theatre in our town. At the weekend, we like to go swimming in a big lake near our house.

I normally get up at eight o'clock, but on Thursday I get up at six o'clock because that is the day when I go running in the park. I like living in Branton because it's not too big. There are some historical buildings in the centre of the town and near Branton, there is a river where I sometimes go fishing when I want to relax.

I'm Nader and I live in Alexandria with my parents and my sisters. I'm the youngest in my family. I turned 13 last month. My sisters are Mona, 16, and Rana, 19. Rana's very serious and she always tells me what to do, I guess because she's the oldest. I go to a nice school not too far from our home and I really enjoy it. I have a lat of friends there and I enjoy studying. My best subject is Geography, probably because it's the easiest! My most difficult subject is Maths. I love playing sports, especially basketball. I'm the tallest player in the school team and I usually play really well. It's the happiest part of my day. My coach says that one day I could play professional basketball! At the weekend I spend a tot of time with my friends Hossam and Ramy. We do everything together and they are the most important people in my life, apart from my family of course!

Abdo was the son of a farmer. His father's farm was poor, and Abdo worked on it for a long time. When his father died, he sold the farm and bought another one in a better place.

A neighbour said to him, "The weather's often very bad here. The wind's very strong, and it breaks windows and doors". So Abdo built a room under the ground.

But after that, the weather was good for a very long time. There was no wind, and Abdo spoke angrily. He said, "Why did I listen to my neighbour?"

But then one day there was a very strong wind, and Abdo and his family had to go down into their room under the ground.

Then the wind stopped, and they came up. All the windows and doors in their house were broken. Abdo was not angry about his work now. He smiled happily and said, "Ah! I'm glad I built that room!"

A bear walked into a café and sat down at a table. It removed its hat and placed it on the floor beside his chair. The waiter came over and asked what it wanted. The bear ordered a large black coffee. When the waiter brought the coffee, the bear put six lumps of sugar in, began to drink it slowly and read his newspaper.

The first bear <u>agreed</u> so the second bear took a seat. The waiter came to take the new bear's order. "Bring me a large coffee," said the second bear. The coffee soon arrived. All over the world there are thousands of people who have a pair of jeans. Millions of pairs are sold every year. All kinds of people wear them: kings, lorry drivers, singers and you!

Jeans are made from cotton. Cotton grows in hot countries, like Egypt. When the cotton is white, it is picked. Next it is cleaned and then it is taken to a factory. At the factory the cotton is made into long threads. Machines are used to weave them to make cloth. The cloth is taken to another factory. There, it is cut and the pieces are sewn together. Jeans have to be strong. Did you see the small round pieces of metal on the pockets of jeans before? These make the pockets strong. When the jeans are finished, they are taken to clothes shops and markets. Now you can buy them!

Last Friday, I went to the zoo with my family. It was a lovely day as we enjoyed seeing different kinds of animals. When we passed in front of the monkeys, baboons and gorillas, we were amused by their funny movements; jumping, running and going from one branch to another. We saw a gorilla feeds her baby as our mothers do. When we went to the hippo lake, we saw several hippos bathing in the water. The guard made one of them open its wide mouth while my sister quickly threw some grass into it. In the lion house, several lions were roaring and one of them was eating meat. We liked the king of beasts with its fine respectable appearance. In the end, we got tired and sat in the tea island where we ate sandwiches and had drinks. One evening, a hungry fox came to a farmer's house. There was a big dog lying outside the house. It was tied to a tree with a rope. A woman came out of the house and put a plate of meat on the ground. She put it near enough for the dog to reach, but the dog wasn't hungry. It didn't eat the meat. The fox was very hungry, but it was afraid that the dog might attack it if it tried to eat the meat. The fox began to walk slowly round the tree and the dog followed it. The rope was also going round and round the tree and so it became shorter and shorter. At last, the rope was too short for the dog to reach the plate. Then the fox ate up the meat and ran away.

We can help protect the environment in our everyday life. The most important way to protect the environment is to plant trees. Trees may take long to grow, but they are good for our children. We must also stop cutting them down. We must use less water when we wash or brush our teeth. To protect the environment, we can walk, use bikes or public means of transport instead of our cars. Cars cause a lot of air pollution. We can also collect rubbish and recycle it.

I'm Mariam. My daily routine is the same every school day! I always get up at 6:30 in the morning. My mum always makes my breakfast. I go to school by bus with my friend Dina. In the evening, I do my homework, read on the sofa, watch TV and text my friends. Then I go to bed!

Unit 2

I'm Kamal. I'm parking my food stall here because it's the best place in the city. Lots of people and tourists come this way. People start to buy their breakfast at 6 a.m. I'm getting everything ready. I'm feeling cold and I'm looking forward to drinking some hot coffee!

Unit 3

When my parents were younger, they lived in Luxor. Then they moved to Port Said in 1990. My father got a job in Cairo 15 years ago. They then lived in a small flat from 2005 to 2006. They moved to the bigger flat a year later when I was born.

Mount Kilimanjaro is the Africa's highest mountain. The ice is melting on top of it. The warmer and drier weather is melting the ice on top of it. This area of ice is much smaller than 100 years ago. That means there was more ice on the mountain.

Review B

I love historic places like Petra in Jordan. It dates to around 3000 BCE, so it is more than two thousand years old! You must buy a ticket to visit, but when you are inside, you can walk for a long way through the old city and the view from some of the higher places are awesome, but you must be careful!

My name's Munir. During the week, my sister and I take turns to wash up after meals. I wash up after dinner on Mondays and Wednesdays and she washes up after dinner on Tuesdays and Thursdays. Sometimes, I help my grandmother to do the cooking. I love making koshari.

C. Reading Comprehension \

3 > Read the following, then answer the questions:

Mohamed Salah is my favourite sports star. He plays football for a very good team in Europe. He plays for Egypt, too. Mohamed Salah is one of Egypt's most famous footballers. He is admired for his speed and ability to score goals. In 2017, he scored the goal to send Egypt to the World Cup finals since 1990.

He is a kind person. Salah is famous for his kind and generous donations to charities in Egypt. He donated money to his hometown of Nagrig to build a school, and he helped a children's cancer hospital in Cairo. He is very friendly and he always talks to his fans. Read the following, then answer the questions:

The Suez Canal is very important to Egypt. It is the longest canal in the world. Many ships travel through it each year. All the ships pay money to use the canal. We earn to lot of money from the canal. The Suez Canal is important because it shortens the way between the east and the west. It is quicker to travel through the canal than to travel round Africa. Long ago, the Egyptians dug the Suez Canal and now are proud that they did something very useful. Now the Suez Canal helps many countries to send their goods to other places in short times and with less money than sending them through other canals.

3 Read the following, then answer the questions:

Once there was a very rich lady whose husband died after leaving her a lot of money. She was eighty years old so she was too old to live alone and look after herself. The lady went to live in a very expensive hotel and she took her dogs with her. She had a pair of ugly dogs which used to make a lot of noise. The lady loved her two dogs so much although nobody else did.

After six months, a waiter came to work at the hotel and began to do everything to help the woman. He did that only because he expected her to leave him some money ofter caring about her and her dogs. Two years later, the woman died and in her will she said that the waiter was so kind to her that she wanted him to take the things which she loves best. Can you guess what did she leave for the waiter? Her two ugly dogs!

I saw them from a long way away. Salah al-Din built it to protect Cairo. It took eight years to complete. I visited many museums and mosques there. I hope to visit it again one day.

I work far from my home, almost 50 kilometres away. I have to wake up early every morning. There's never enough time for a breakfast. At exactly 6:00 a.m., I get into my car and start the long drive. The drive to work takes about one hour. Going back home in the evening after work takes even longer, maybe around 70 minutes. I think about trying to take the train to work instead of driving. That way, I could still listen to my music with headphones, and even read a novel at the same time.
